Assignment 06

1 --

Using Turtle Graphics, draw whatever you want to draw, but you must satisfy the following requirements:

1. Use `for` or `while` loop at least once.
2. Include your name in the drawing using the `write` method.
3. Drawing methods must be used more than 10 times (e.g. `forward`, `backward`, `circle`, and etc.)

If you have no idea what to draw, draw a church.

The following code will save your drawing as `my-drawing.eps`. Make sure to include `my-drawing.eps` in the zip file you're submitting.

In [1]:

```python
import turtle

t = turtle.Turtle()
t.speed('fast')

### YOUR CODE STARTS HERE

### YOUR CODE ENDS HERE

ts = turtle.getscreen()
ts.getcanvas().postscript(file="my-drawing.eps")

t.screen.mainloop()
```
